70-80% of all short-term absences are due to minor illnesses with over 90% being in the top five most common causes of absence.

Patients are finding it increasingly difficult to see their local GP. An average UK wait time for an appointment is now 13 days and, in some areas, up to 17 days.

Potential costs to an employer can be substantial if an employee is unable to see a doctor quickly.

Many employees are unable to see a doctor without taking time off to receive treatment at a convenient time and location.

1Stop4aGP are here to help you resolve these issues.

So, how does it work?

Employees simply call our 24/7 helpline, where they will speak to an experienced member of the customer service team who will book either a telephone or video consultation with a GP at a convenient time to them.

One of our doctors will call the employee back at the appointed time and their consultation will begin.

With no time limit on consultations, they can speak to a clinician for as long as necessary about any concerns or symptoms they may have.
